

PRESIDENT

PEOPLE'S REPUBLIC OF BANGLADESH

I welcome the second convocation of the East West University.

A convocation is a significant milestone for any University. For the students, it is a happy occasion to look forward to a new future and a stage to be served with the knowledge they acquired.

Private Universities have an important role to play in the development of quality education, particularly needed in higher education in Bangladesh. We expect that the Private Universities would provide better service to the students, to the society and to the country in general.

My heartiest felicitation to the graduating students. I wish them success in their career. I congratulate the faculty and the management of the University.

Allah Hafez, Bangladesh Zindabad.

Professor Dr Iajuddin Ahmed
